

ELVIRA FLORIO

Via generale di san Marzano 18, Catania (Italy)

N: (+39) 3451774497; E: elvira.florio22@gmail.it

PERSONAL STATEMENT

When I have firstly seen the call for this proposed programme of work, I understood it was the perfect position for me, to achieve new knowledge and skills so useful in this difficult work we have chosen, the art of Medicine. My MA dissertation focused on the examination of undiagnosed ASD and its prevalence, the topic was very fascinating, thus I started to review the literature and investigate its genetical and environmental development. After the dissertation viva (which I have passed with 106/110), I am now focusing on expanding my knowledge not only about ASD, but also by studying in deep every part of medicine that I had neglected, to become not only a more complete doctor but also a more complete person.

For this reason, nephrology and dialysis mechanism are fascinating to me. I am an extremely empathic person, with a strong will and I am a true goal-oriented person, very eager to learn and my natural attitude is to develop a special connection with people.

EDUCATION

From 2011-12 to 2018-2019

University of Catania, Italy. **Second Cycle-Master's Degree in Medicine and Surgery.**

Class LM-41 – Class of Laurea Magistrale Degrees in Medicine.

MEDICAL PROFESSIONAL EXPERIENCE

2020 jan - mar

Centro di Emodialisi San Luca, Lentini, Syracuse.

acquired skills with haemodialysis **Gambro "Artis Physio" machine**.

acquired skills with haemodialysis **Fresenius "5008S" machine**.

COMMUNICATION SKILLS

Good communication and ambassadorial skills gained through my personal experience as an Airbnb Host and work experience as a receptionist at Hostel "A Putia dell'Ostello" in Catania. Here I learn how to deal with customer care solving their daily needs. Moreover, also acted as translator from English to Italian for the restaurant's menu.

Significant Relationship Skills with kids with special needs, gained from my multiple-year experience in Clown Therapy Programme at the Pediatric Department of the Hospital Policlinico Gaspare Rodolico (Catania), able to manage a various array of situations.

Great Empathy skills, as a trait of my personality, further developed through my Internship at the Psychiatry Department of the Hospital Policlinico G. Rodolico (Catania), and through the Clown Therapy Programme.

ORGANISATIONAL/ MANAGERIAL SKILLS

Management Skills, developed as manager of my own Airbnb activity, and as a Help-Manager at the reception of A Putia dell'Ostello. Here I was dealing with customers and daily payments. Moreover, all these work experiences took place during my university years, with a great effort on my part to balance these different activities.

Diplomacy, as listed before, underlying the ability to listen and understand the other person, maintaining a firm position.

Resourceful and Enterprising person, as a part of my personality.

Not Medical WORK EXPERIENCE

During my university years, as I mentioned above, I studied and worked at the same time, with a great effort on my part to balance these different activities.

from 2017- 2019

- Airbnb experience (Catania)
- A Putia dell'Ostello (Catania), Receptionist and help-manager.
